YOUNG BOYS STOLE MONEY.

Quick Justice Followed Lads Who Entered Home and Took Away \$12,000.
Waterbury, Conn., April 9.—Four boys suspected of connection with the robbery in Lanesville, Conn., Thursday night, when \$12,000 was stolen from the home of Henry Davis, were arrested at their homes here today. About \$8,000 was found in their possession.
The boys are: Fred Blodgett, aged 16; Edward Ware, aged 19; Samuel McCormick, aged 18, and Henry Plant, 20 years old. John Turner, 16 years old, has been arrested at Newford, charged with complicity in the same robbery. He is said to have made a full confession and took the officers to Brookville Junction, where they found \$1,200 hidden under a stone wall.

GUM CAMPHOR TAKES A POWERFUL SLUMP.

New York, April 9.—A slump of 8 cents a pound has occurred in the price of gum camphor, extensively used in manufacturing. Since last December, the cost has increased greatly because of the war in the east—the crude material being held in Japan under a government monopoly. The refiners claim that the promise of shipment of supplies on March and April contracts gave them a basis for the reduction of the refined product to 85 cents.

COULD Not Stand Unjust Taunt of Boys.

Porter Driven to Desperation by Jeering Words.

Drew His Revolver and Shot Dead Young Man Who Persisted in Calling Him a "White Nigger."

Scrifflinton, Pa., April 9.—David Kelly, aged 23 years is in jail, charged with the killing of Shepard Moore, aged 18 years. Both young men are well known. Exciting circumstances surround the murder. Kelly was employed as a porter and has been taunted by a crowd of the village boys, who called him "white nigger" on account of his occupation. Last evening, young Moore and several companions stopped a vehicle young Kelly was driving and the name "white nigger" was hurled at him. Kelly attempted to drive on, but was held by the young men, and whipping out a revolver from his pocket, he opened fire. Moore threw his hands to his breast and fell, expiring shortly after. Burgess Young arrested Kelly. The news of the killing spread, and a large crowd of excited people collected about the small lock-up. Several times the crowd surged forward in an effort to force the doors of the jail, but the burgess drove them back by leveling his revolver in their faces. This morning Kelly was removed to the jail at Greensburg, Pa., for better protection.

AMERICAN LINE STEAMER

Came in Easy Winner in Contest for Carrying of Foreign Mails.

London, April 9.—This week's race with the mails was easily won by the American line steamer St. Louis from New York April 2. The steamer arrived at Plymouth, at 3 08 a. m. today, and her post bags reached London, at 9:17 o'clock this morning, while the Cunard line steamer Etruria, from New York, April 2, only arrived at Queenstown at 4:24 a. m. The old time rivalry between the Great Western and the London and South-western railroads, which has been revived since the American line began calling at Plymouth, is greatly to the advantage of both passengers and mails. The Great Western this morning in record run, covered 215 3/4 miles in four hours and eighteen minutes with two stops, and arrived with the mails so far ahead of time that the postal vans had not arrived at the station. The London and South-western landed its passengers in London at 9 35 a. m. and the mails were distributed before one o'clock

AFTER Seven Years of a Search

Family Which Has Preyed Upon the Public

Is Found Living in a Richly Furnished Home, in Chicago-Suburb.

Mother Kapt Her Eight Children on Streets, and Visiting Homes, Pleading Poverty—Juvenile Court Acts.

Chicago, April 9.—Living in a richly furnished house on the West Side, a family of beggars has been located after seven years search. The long hunt ended when Superintendent James Minnick, of the West Side Bureau of Charities took into custody, three small children of Mrs. Missouri Boehm. Two hours later five other children were arrested and Judge Brown in the juvenile court put them in the care of court officers or sent them to institutions.

In the family home, a probations officer found a piano, expensive rugs and draperies, and furniture of costly woods. There were closets and chests filled with clothing, and in the basement were bales of clothing apparently for sale.

When the family was taken to court Mrs. Boehm was declared by Minnick to have been for ten years a beggar in Austin, Oak Park and West Side of Chicago.

Minnick testified that Mrs. Boehm sent out her children to beg and that in the last four years, more than 100 letters have been written to the Bureau of Charities by persons interested in the pleas of the begging children.

EDISON CURE FOR INSANITY.

Moving Pictures Shown to Those Mentally Weak Led Them From Hallucinations.

Chicago, April 9.—Moving pictures as an aid to cure of insane patients have been tried for the first time at the Dunning asylum. Dr. V. H. Podstata, superintendent of the asylum declared after the test that the effect produced was beneficial. The performance on the canvas drew the attention and interest of every one of the 400 patients. The seemingly realistic manner in which figures appeared and disappeared within the rim of light opened a new channel for their thoughts led them away from the particular hallucination or delusion which effected their minds. Excitable patients seemed to be quieted and calmed by the pictures. Those suffering from chronic melancholia appeared to be stimulated and aroused from their constant brooding over imaginary wrongs, and showed an unusual interest in what was going on. As a result of the experiment, a moving picture machine will be purchased for the asylum and entertainments will be given once a week or often.

WIDE SCOPE THEY COVERED.

Philadelphia, April 9.—The American Philosophical Society held the final session of its general meeting today the president, Prof. Edgar F. Smith, vice president of the university of Pennsylvania, being in the chair. Prof. Marion D. Learned, of the University of Penna., delivered an address on the results of the American Ethnographical Survey, and Sydney George Fisher, of this city described the effect of the American revolution upon the English colonial system. Other papers read were "The Establishment of Game Refuges in the den Sampson, of Haverford, Pa.; "The Use of the Relative Pronouns in Standard English Writers," by Prof. Waterman T. Howell, of Cornell University; "The Heliocentric Postulate," by Prof. Lindley M. Kossaby, of Bryn Mawr College, and "The Regulations of Color-signals in Marine and Naval Service," by Dr. Chas. A. CONFIRMATION OF AGREEMENT.

Meeting of Foreign Ministers Concerning Questions Affecting the Balkan States.

Abbasia, Austria, April 9.—The Italian cruiser Dogali with Foreign Minister Tittoni on board, arrived here today. Signor Tittoni landed at ten o'clock and visited Count Goluchowski, the Austro-Hungarian foreign minister.

The Patria of Rome, April 7, said the meeting of Count Goluchowski and Signor Tittoni had for its principal object the confirmation of the agreement between Italy and Austria concerning questions affecting the Balkan states. The ministers, the Patria added, would also exchange views looking to some arrangement by which the heads of Catholic states who visited the Vatican may visit the Quirinal without giving offense to the Holy See.

MISSISSIPPI HAS BROKEN THROUGH THE LEVEE.

Memphis, Tenn., April 9.—The Mississippi this morning shows a stage of 38.6 feet or 5.8 feet above the danger line. From Bartlett to Memphis, it is still rising and the crest should reach this city by tonight. United States engineers today received reports that the small protection levee in front of Luxara, Ark., gave way and the low part of the town is being flooded. The main levee, however remains intact and the damage will be comparatively slight. The local situation is not at all alarming.

ZURHORST Stops Nasty Tangle Over His Scalp.

His Resignation as Collector of Customs Received.

He Was Vigorously Opposed by Senator Foraker, Who Is Urging Upon President Appointment of Successor.

Washington, April 9.—The secretary of the treasury has received the resignation of E. H. Zurhorst, as collector of customs at Sandusky, Ohio, to take effect on the appointment and qualification of his successor.

Collector Zurhorst is in Washington today, having come here with a delegation of Sandusky citizens to appear before the house rivers and harbors committee to advocate the improvement of Sandusky bay.

Mr. Zurhorst was appointed collector at Sandusky by the late President McKinley at the instance of Senator Hanna. Recently charges were filed against him with the treasury department. He was opposed vigorously by Senator Foraker who urged upon the president the immediate appointment of a successor. During Senator Hanna's life time he warmly supported Zurhorst and the case was one of the acute points of differences between Senators Hanna and Foraker.

Of late it has seemed likely that Zurhorst would not be reappointed, although no definite decision, so far as is known publicly, had been reached. Both Senators Dick and Foraker have had conferences with the president regarding the case within a few days. By Mr. Zurhorst's voluntary act in resigning the office the case, so far as he is concerned is ended. No intimation as to who may his successor has been given.

Bulgaria Agrees to Suppress Revolutionary Movements and Smuggling in Her Territory.

Sofia, April 9.—The Turco-Bulgarian convention, signed at Constantinople yesterday, provides for amnesty to all Bulgarians comprised in the Macedonian rising of 1903, excepting persons guilty of using dynamite; the repatriation of refugees; the removal of frontier restriction on Bulgaria trade and travel and the application of the Austro-Hungarian reform scheme to Macedonia.

Bulgaria undertakes to suppress revolutionary movements in her territory and to prevent the smuggling of arms and explosives across the frontier.

COPPER KING HAS

Thrilling Adventure With Fellow Who Claims to Have Been Swindled.

Two Revolvers Found on Man

When Searched by Police—Greene Claims Some One With Millions Is Instigator of Attempt on His Life—Trouble Grows From a Big Mining Deal.

New York, April 9.—James W. Goodman a machinist, was arrested here today charged with making threats against the life of Wm. C. Greene, president of the Greene Consolidated Copper Co. When Goodman was arraigned in police court, Mr. Greene testified that Goodman lay in wait outside his (Greene's) house today and that Goodman came up to him and said: "Your the man I am laying for. Now I'm going to kill you."

Mr. Green said that Goodman rubbed against him, and he felt a revolver in the man's pocket. Goodman followed him to his office, Mr. Greene added, and was there arrested.

According to the police, two revolvers were found in Goodman's pockets.

Goodman has been in the city since last September, having given his address as Nogala, Ariz., and has been understood here as representative of a mining company at Sonora, Mexico. The charge of felonious assault with attempt to kill was made when Goodman was arraigned in court and he was held in \$5,000 bail for examination on Monday. It was alleged that there had been some differences between Greene and Goodman on a mining deal. Goodman met Greene today near Broadway and 72nd street, and it is charged there threatened to kill him, but Greene told him to come down to his office and matters could there be satisfactorily settled.

They went by an elevated train down town, the trip down being uneventful. After getting in the office, it is charged Goodman said to Mr. Greene:

"I want that \$500,000 that is due me in that mining deal. I demand a settlement."

Goodman pulled out a revolver from his hip pocket and pointed it at Greene.

During the controversy which followed, it is alleged, Goodman three times pointed the revolver at Mr. Greene and threatened each time to shoot him.

Mr. Greene excused himself, leaving Goodman in the room with Mr. Robbins, the secretary of the company. Mr. Greene hurried to the Old Slip police station and told about the trouble. Patrolmen were sent post haste to the office, and Goodman was

disarmed. Goodman, after two revolvers had been taken from him, laughingly said: "Well; you've got them all."

Goodman was then taken at once to the Tombs court.

Mr. Greene swore to the affidavit charging felonious assault and attempt to kill. Mr. Robbins swore to a corroborating affidavit. Mr. Greene in stating the case to Magistrate Cornell, told the story of the case and also said:

"This man Goodman disposed of stock in a Mexican mine to a man named Smith. There were 100,000 shares and they were worth about \$100,000. This man then drank and gambled the money away and it was not until he had spent all the money and found himself broke that he came to me and claimed that he had been swindled."

The defendant asked for an explanation and the magistrate turning to Mr. Green asked: "Do you think this man can furnish \$1,500 bail?"

Mr. Greene replied significantly: "The man who I think put him up to the shooting might get bonds for the amount. He might get bonds for one million as easy as one thousand."

Goodman was then held in \$5,000 bail for examination on Monday afternoon. He was taken to the Tombs and locked up.

Mr. Greene, after the case had been disposed of, made the following statement:

"I did not know this man until three weeks ago, when he called at my office and said there were 5,000 shares of the Yagui Copper Co. due him. He asked me to go and straighten out the matter for him. I went to the office of the Yagui Co., and arranged with the president and secretary of the company so that Goodman would receive all that was due him. The stock was made out and left there so that he could call for it. A few days later, Goodman called and refused to sign the receipt for the stock, so he did not get it."

"Then Goodman told me that he was employed by the Minas Prietas Gola and Silver Mining Co., of Sonora, Mexico, of which John W. Gates and his associates are the owners."

Goodman absolutely refused to talk at all. He even refused to say what company he was connected with.

MAMMOTH Freight Steamship Launched at Lorain, Ohio.

Vessel Is the Largest Ever Constructed for Use in Fresh Water Service in the World.

Lorain, O., April 9.—In the presence of an immense crowd of spectators, the big steamer Augustus B. Wolvin, the largest vessel ever built on fresh water, and said to be the largest boat, designed exclusively for carrying freight in the world, was successfully launched at the American Ship Building company's yards, here, today. When completed the vessel will have cost her owners, the Acme Steamship Co., about \$500,000.

The new vessel is 560 feet long, 56 feet wide, and 32 feet deep. She contains 4500 tons of steel, exclusive of machinery and fittings. She will carry about 11,000 tons of iron ore, besides 300 tons of fuel, on 15 feet draught.

This is equivalent to 333 car loads. The vessel will have 33 hatches, and by means of the modern unloading machinery, it is estimated that her maximum cargo can be discharged in six hours.

COLD CAME FAST.

Lacrosse, Wis., April 9.—Snow, driven by a strong wind, gave this vicinity a blizzard today. The temperature fell 20 degrees in two hours. Railroads report serious trouble west of here.

BRITISH DID NOT ESCAPE.

Lost Four Men and Had Forty-eight Wounded by Nigerian Natives.

London, April 9.—The British Punitive expedition operating against the Okpoto tribe of natives in Nigeria, British West Africa, lost four men killed and forty-eight wounded in the fighting recently, when the Okpoto's fought their way into the midst of a British square.

The Okpoto's continue determinedly to resist the advance of the expedition.

The head of the Captain Orjordan, one of the British officers previously killed, has been recovered as well as some of the guns lost when his patrol was cut up in December last.

THIS IS FAIR.

Omaha, April 9.—Freezing weather following a rain storm with a fall in the temperature of 35 degrees. The cold wave extends over the entire state and western Iowa.

# WORKING GIRLS

## A Cordial Invitation to Every Sick and Ailing Working Girl.

It is to these girls that Mrs. Pinkham holds out a helping hand, and extends a cordial invitation to correspond with her. Her long record of success in treating women's ills makes her letters of advice of untold value to every ailing working girl, and from her wide experience and skill she quickly points the way to health. Her advice is free, and all letters are held by her in the strictest confidence. Address, Mrs. Pinkham, Lynn, Mass. Don't put off writing her until your health is wrecked.

Girls who work are particularly susceptible to female ills, especially when obliged to stand on their feet from morning until night. Day in and day out, month in and month out, the year through, the working girl toils; she is often the bread winner of the family, and must work that others may live; whether she is sick or well, whether it rains or shines, whether it is warm or cold she must get to her place of employment and perform the duties exacted from her.

Among this class the symptoms of female diseases are early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach; in consequence of frequent wetting of the feet monthly periods become painful and irregular, and frequently there are faint and dizzy spells, with loss of appetite, until life is a burden and it is hard work to drag about. All these symptoms point to a derangement of the female organism, and if taken in time can be easily and permanently cured.

## Lydia E. Pinkham's Vegetable Compound.

### Grateful Words from Working Girls Who Have Been Helped.

"I wish to thank you for the wonderful cure you have discovered for suffering girls. I am a working girl and do not believe there is a girl in the country who has suffered more than I have with female disorders."

"Although ever so many physicians with their various remedies were tried, nothing seemed to relieve me of the terrible pains, and it seemed as though there was no help for me, until I was finally persuaded to try Lydia E. Pinkham's Vegetable Compound. It worked like magic for I had scarcely finished the second bottle when a great change was noticed in my whole general health, and in the three months time I felt like a new person."

Miss M. E. Paulson, 914 Willow Ave., Hoboken, N.J.

Seeing so many women and girls being helped by your medicine I thought I would try it. I was very irregular in regard to menstruation, and had had no menses for two months.

"I obtained a bottle of your medicine just to see if I could cure myself without going to a doctor. One bottle gave me great relief, and now I am a different girl altogether. I will never be without Lydia E. Pinkham's Vegetable Compound, as I know I would not be working to-day if I had not used your medicine."

Vocal Quartette. Mrs. J. Bingham, Teresa Stein, Catharine Sullivan and Margaret Dean.

Next Friday afternoon, at the K. of P. hall, the Federated clubs will hold an informal reception with a literary program. All ladies interested in the federation are invited to attend.

Next Wednesday afternoon, the Faithful Helpers will meet with Mrs. Baker, of west Elm street.

The Philomatheans will not meet next Monday evening.

Thursday afternoon, Mrs. Henry Deisel, of west North street, entertained the members of the Proba Stunden and Mrs. Theodore Michael and Mrs. Geo. Taylor. Mrs. John Hoffman won the first prize, a dainty cream and sugar set. Mrs. Bauer won the second, a pretty dish, and the guest prize, another pretty dish, went to Mrs. Michael.

The Lisztainers will meet next Tuesday evening with Miss Leah Arthur, of north Metcalf street.

The Hiawathians were entertained last evening at the home of Mr. and Mrs. Glen Wallace, of west High street. A laughable surprise was given the husbands, who had to each choose a package containing all the materials for making a fashionable hat for their wives. Mr. skill and ingenuity was shown and the local milliners will have to keep watch for their rival's work.

Next Tuesday afternoon immediately after the auxiliary meeting at the Y. M. C. A., the representatives of the various clubs in the federation, will hold an important meeting.

The T. & C. club spent last evening with Mr. and Mrs. G. M. Sprague. "Humorists of America" was the topic.

The Twilight Recital was a fitting close to a week filled with Easter chimes, music having had first place in nearly all functions. Trinity church was comfortably filled with club women and their friends, who are determined to raise the necessary funds for a library site. One man leaving the concert said, "Well, such a recital once a month would soon raise all money necessary," and judging from the expressions of pleasure on every hand, the Federation may feel safe in giving frequent entertainments.

The reception and ball given last evening by Trinity Chapter O. E. S., was a decided success in every way. There was diversion of various kinds. Those who wished could dance the hours away, and those who preferred a quiet game of cards, could have it, or any of the other games provided, and then everyone was pleased with readings given by several young women, who are interested in the welfare of Trinity Chapter. A buffet lunch was served to dancers and non-dancers throughout the evening.

Mr. and Mrs. Taylor, who have recently moved from Toledo to our city, have taken a suite of rooms at the home of Mrs. J. W. Fenner, of west Wayne street.

The Hiawathians will meet with Mr. and Mrs. O. L. DeWeese, next Friday night, April 15th.

Ordinary household accidents have no terrors when there's a bottle of Dr. Thomas' Electric Oil in the medicine chest. Head-aches, cuts, bruises, sprains. Instant relief.

### Women's Headaches

542 1-2 Congress Street.  
PORTLAND, MAINE, Oct. 17, 1902.

I consider Wine of Cardui superior to any doctor's medicine I ever used and I know whereof I speak. I suffered for nine months with suppressed menstruation which completely prostrated me. Pain would shoot through my back and sides and I would have blinding headaches. My limbs would swell up and I would feel so weak I could not stand up. I naturally felt discouraged for I seemed beyond the help of physicians, but Wine of Cardui came as a God-send to me. I felt a change for the better within a week. After nine-ten days treatment I menstruated without suffering agony; I usually did and soon became regular and without pain.

Wine of Cardui is simply wonderful and I wish that all suffering women knew of its good qualities.

*Mrs. Wilhelmine Snow*  
Treasurer, Portland Seaports League.

Headaches are the danger signals of coming disease. Both men and women suffer headaches, but periodical headache falls only to the lot of women and is the warning sign of irregular menstruation and bearing down pains. Completely prostrated by nine months of suppressed menses, blinded by headaches and racked with pain Mrs. Snow was made a strong and healthy woman again. Remember with Wine of Cardui no case is hopeless because this great remedy cures permanently nineteen out of every twenty cases and never fails to benefit a case of irregular menses, bearing down pains or any female weakness. If you are discouraged and doctors have failed, try Wine of Cardui, and try it now. Remember that headaches mean female weakness. Secure a bottle of Wine of Cardui today. All druggists sell \$1.00 bottles of Wine of Cardui.

### Whiskey and Beer Habit

PERMANENTLY CURED BY  
"ORRINE"

**ABSOLUTELY SAFE, SURE AND HARMLESS.**

Physician pronounce drunkenness a disease of the nervous system, creating a morbid craving for a stimulant. Continued indulgence in whiskey, beer or wine eats away the stomach lining and stupefies the digestive organs, thus destroying the digestion and raising the heart. No "will power" can heal the inflamed stomach membrane.

"ORRINE" permanently removes the craving for liquor by acting directly on the affected nerves, restoring the stomach and digestive organs to normal conditions, improving the appetite and restoring the health. Can be given secretly if desired.

**Cure Effected or Money Refunded!**

Ask your druggist whom you know what he thinks of ORRINE; he will endorse our statements as truthful in every respect. If ORRINE fails to cure we will refund you every penny paid for it as cheerfully as we took it.

**No Sanitarium Treatment or Publicity!**  
**No Absence from home or loss of time!**

Mothers, wives and sisters, you cannot cure those who are afflicted with this most terrible of all diseases. Obtained indulgence in every way. You have the remedy—will you use it? It can be done only with ORRINE. You have the remedy—will you use it? If you desire to cure without the knowledge of the patient, buy ORRINE No. 1; if the patient desires to be cured of his own free will, buy ORRINE No. 2. Full directions found in each package. Price \$1 per box.

We will gladly furnish a treatment free of cost to any physician to demonstrate that ORRINE is a positive specific for drunkenness.

Medo Computing Scale Co., Toledo, Ohio.  
Gentlemen:—Replying to your inquiry as to how we liked the Toledo scales, we must say frankly that we er them the only scale. In the course of our business experience we have used the Dayton, National and alance scales so that we feel we are competent to express an intelligent opinion.  
By the use of your scales we have been enabled to positively stop the giving of overweight which is the f the grocer business. Your scale also prevents the giving of underweights, consequently it treats our ers with perfect justice as well as ourselves. We can also weigh our goods in a quarter the time reon any other scales because of its freedom from poises and weights, doing away with all hand movements. r thing that appeals to us about this scale is showing to the customer the exact weight of every article. d this feature alone is very pleasing to our trade. We use your system in our store and consider it one best investments. In the stopping of overweight your scales pay for themselves in a short time, to say g about the saving of time. We wish you every success.

Very truly yours,

## AMUSEMENTS.

Tonight, "The Burgomaster."  
Monday, "As You Like It."  
Thursday, "The Worst Woman in London."

—:—  
The attraction at Faurot opera house this afternoon and evening will be "The Burgomaster," the greatest comedy success of the times. There is a company of sixty people presenting this light opera favorite with a new production, new costumes, and the prettiest chorus that "The Burgomaster" has ever had. When one considers that "The Burgomaster" has always been famed for its pretty girls, it can be seen that this claim means a great deal. Half a dozen new songs have been introduced into the piece this season, and one of them, is said to be an immense hit. In the big company presenting "The Burgomaster" this year, are as many of the famous original cast as could be secured, including Ruth White as "Willie," Oscar L. Figman as "The Burgomaster," Fred Lennox, Wm. Riley Hatch, Charles Sharpe, R. J. Moye, George McKinnock, Grace Gibson, Harriett Sheldon, Louis Brackett and Carrie Miller.

—:—  
There is one excellent reason why any performance of "As You Like It" cannot, but is altogether acceptable. That reason is the fact that William Shakespeare, and William Shakespeare in his happiest vein, stands responsible for the play. His wittest witcheries, his tenderest fancies, the most luxuriant exuberances of pulsing poesy, bestowed upon the inexhaustible cornucopia of his thought and sentiment, have made this comedy of the master dramatist, brilliant, alive and true beyond the possibility of ab-

solute desilement. Exceptionally fine gems will show their quality, though they be set in crumpled tin.

Such being the case it is indeed a pleasure to be able to announce that "As You Like It" for one performance here, at the Faurot opera house Monday night. It will be given by Mr. Ernest Shipman's big New York Co., and the cast contains a number of names which for years has been seen in nothing but big city casts. The bright particular star of the company is Miss Florence Gale, one of the best known delineators of Shakespeare's

heroines now before the public. Nature was very prodigal in gifts to Miss Gale, for she not only possesses talent of a very high order, but is acknowledged to be the most beautiful woman on the stage today. The supporting company has been chosen carefully by Manager Shipman, with a view to making this performance a truly memorable one. The tour is to be for 40 nights only. A word of praise is due Manager Maxwell and a number of the better class of theatre-goers, who guaranteed the necessary support without which the company would not consent to appear.

—:—  
"The Worst Woman in London," from the Adelphi Theatre, London, which will be seen at Faurot opera house on next Thursday night, is a melodrama in four acts and fourteen scenes. The play had a long phenomenally successful run in London, and was pronounced by English critics to be the best and most realistic melodrama produced at the Adelphi, the home of English melodrama, for several years. R. G. Craerlin bought the American rights, and made several of the English companies a tempting offer which they accepted, and they then began preparations for an American production. Not satisfied with the material at hand in this large country of ours, Manager Craerlin went to Australia for an actress to interpret the leading female role in the play, which has been conceded one of the most daring, contemptible and villainous of roles introduced in a drama for many a day. Ann Fairchild who had a great reputation in Australia for assuming "female heavies" was secured for Frances Vere, "the worst woman in London," with the result that the New York critics favorably criticized her efforts and acknowledged her to be a very bad woman, in her truthful personation of the character.

The play is a very sensational one, comprising fourteen realistic scenes of the old fashioned English type, which are "thrillers" to the backbone.

**CHRONIC BRONCHITIS CURED.**  
"For ten years I had chronic bronchitis so bad that at times I could not speak above a whisper," writes Mr. Joseph Coffman, of Montmorenci, Ind. "I tried all remedies available, but with no success. Fortunately my employer suggested that I try Foley's Honey and Tar. Its effect was almost miraculous, and I am now cured of the disease. On my recommendation many people have used Foley's Honey and Tar, and always with satisfaction." H. F. Vortkamp.

Last evening, several south Lima young people ably assisted the teacher, Miss Ida Diehl, and pupils of the Hidenour school, just south of the city, in giving an enjoyable entertainment. Mr. and Mrs. Wagner and Mr. and Mrs. R. Little sang as a quartette; orchestral music was furnished by the Miasos Bonnie Wetherill, piano, and Lena Rudy and Layola Hartman, violins; Calvin Neiswander and Miss Bertha Wetherill also took an active part. As a whole, the entertainment was a success, and was well attended.

Successful Operation.  
Yesterday afternoon, John M. Neely was operated on for appendicitis, at his home on Holmes avenue, and is reported to be doing nicely.

The Wade boys and the temperance people have almost lost faith in Governor Herrick.

General Lord Kitchener has won another battle. This time an American has surrendered in the person of Miss Daisy Leiter, sister of Joseph Leiter, the ex-wealthy. Their engagement has been announced.

The city is not only threatened with a deficit in the money appropriated for the construction of additional water supply facilities, but with what is more imminent, a shortage in the supply before the additions are made.

On Roosevelt's promise that he would not urge any further action against the illegal combinations of capital organized in Wall street, the moneyed interests of that section have promised him united support for the presidency, unlimited funds with which to carry on his campaign, and he is now familiarly spoken of in financial centers as the "Wall street candidate."

There will be found elsewhere in this issue a letter from Judge Donnelly in which he declares to stand as a candidate for circuit judge, giving as reasons that a due regard for his party, personal friendships, and the other capable gentlemen who are candidates, will not permit him to seek the honor. Judge Donnelly has many close friends in this county who regret his action, and they will await another opportunity to express their appreciation of his strong legal capabilities and fine gentlemanly qualities.

DONNELLY NOT A CANDIDATE. The following letter from Judge Donnelly published in the Democratic Northwest of April 9th, is self-explanatory:

Napoleon, O., April 6, '04 To Editor of Northwest: In view of the fact that my name has been mentioned frequently in connection with the nomination of a candidate on the Democratic ticket for circuit judge, I deem it proper at this time to make a

statement that I am not in any sense a candidate for this position. I am not insensible to the kindly interest manifested by my friends throughout the district, and I appreciate fully the many complimentary notices published in the democratic newspapers, but a due regard for my party and my friends, especially in this county, and for the other estimable and capable men and deserving democrats who are candidates, impels me to make the above announcement.

Respectfully, M. DONNELLY.

The "lid" will be taken off from now until the 25th, when the state legislature adjourns. Watch the combine, headed by Cox, get all it wants at the expense of the taxpayers of the state.

AS OTHERS SEE IT. The democracy of New York seems to be gravitating toward Judge Parker as the democratic presidential candidate. Buffalo democracy led by Hon. Norman L. Mack, Bryan's bosom friend, has declared for Parker. The result of primaries up to date show that the Empire state will be solid for the judge in the state convention.

The disposition of the real demagogue to get together; discard isms and fads; stop throwing over old straw and take up live issues, is commendable. What is needed to head the ticket is a democrat—a man who can see in democracy something more than the republican scheme of collecting revenue and granting special privileges to the favored few. A democrat is wanted who will be a democrat if he is elected and who will recognize in his appointments, the men who stood the brunt of the battle, even though they are opposed by "eminently respectable" republicans. Such a man can and will unite the forces of democracy—not only the grand old army that has so long stood for human rights, brave in battle and heroic in defeat, but a multitude of others who see the folly of expecting equal opportunities from special privileges.—Democratic Northwest.

Philadelphia, April 9.—Immigration was discussed in its various phases at today's session of the national meeting of the American Academy of Political and Social Science. The subject was expressed in a comprehensive address by Frank P. Sargent, United States commissioner of immigration, who spoke on government regulation. Commissioner Sargent said in part:

No question of public policy is of greater importance or effect so closely the interests of the people of this country for the time present and to come as that of immigration. It presents both a practical and sentimental side. It cannot be dealt with as other public issues.

It has become an established principle of this government to frown upon the efforts of foreign countries to bring to the United States to become burdens thereupon the indigent, the morally depraved, the physically and mentally diseased, the shiftless and all those who are induced to leave their own country, not by their own independent volition and their natural ambition to seek a larger and more promising field of individual enterprise, but to carry out some selfish scheme, devised to take undue advantage of some classes of our own people, or for other improper purposes. Such a policy is a wise one, as well as obligatory upon the government of this great country. The total estimated alien immigration to the United States from 1776 to 1890 was 250,000. The total number of arrivals for the fiscal year ending June 30, 1903 was 857,046. This is the greatest number that ever applied for admission in a single year. The nearest approach to this was in 1882 when 789,000 was admitted. The character of the arriving aliens, however, during the past year differs greatly from that of 1882 and the years previous. Since the foundation of our government until within the past fifteen years practically all of the immigrants came from Great Britain and Ireland, Germany and the Scandinavian countries and was very largely of Teutonic stock, with a large percentage of Celtic. Fifteen millions of them have made their homes with us. In fact they have been the pathfinders in the west and northwest. They are intelligent, industrious and sturdy people. They have contributed largely to the development of our country and its resources and to them is due, in a great measure, the high standard of American citizenship.

The character of our immigration has now changed. During the past fifteen years we have received a very undesirable class from southern and eastern Europe which has taken the place of the Teutons and Celts. During the past fiscal year nearly 600,000 of these have been landed on our shores constituting nearly 70 % of the entire immigration for that year. Instead of going to those sections where there is a sort of need for farm labor they congregate in the large cities, mostly along the Atlantic seaboard, where they constitute a dangerous and unwholesome element of our population.

The question that individually and vitally affects the interests of our people is: What shall we do with the thousands that are admitted? Shall they be allowed to form alien colonies in our great cities, there to maintain the false ideas and to propagate the lawless views born thereof as the result of their experience, foreign, not alone geographically, but foreign as well to this country in their ideas of human liberty and individual rights? Immigration left thus is a menace to the peace, good order and stability of American institutions which will grow and increase with the generations and finally burst forth in anarchy and disorder. It is thus in necessary as a measure of public security to devise and put in force some means by which alien arrivals may be distributed throughout this country and thus afford the opportunity by honest industry of securing homes for themselves and their children.

The department of commerce and labor, through the bureau of immigration, should in my judgment, furnish information to all desirable

aliens as to the best localities for profitable means of earning a livelihood, either as settlers, tradesmen and laborers. The states and territories which need immigration should file with the department such evidence of the advantages offered to aliens to settle in localities where conditions are favorable, so that the tide of immigration will be directed to the open and sparsely settled country.

At the bureau of immigration should be the medium of distributing the aliens as it is to decide to whom the right to enter should be given.

Food Scarcity. New York, April 9.—Japanese reports suggest, cables the Tokio correspondent of the Times, that the scarcity of provisions and forage was probably the chief reason for the

For Quick Arrest of Influx Of Foreigners. Are That Hostilities May Be Suspended During Tomorrow, While Easter Is Celebrated.

Solemn and Impressive Ceremonies Held In St. Petersburg Today Commemorating the Burial of the Savior—All Is Quiet at Port Arthur.

Philadelphia, April 9.—Immigration was discussed in its various phases at today's session of the national meeting of the American Academy of Political and Social Science. The subject was expressed in a comprehensive address by Frank P. Sargent, United States commissioner of immigration, who spoke on government regulation. Commissioner Sargent said in part:

No question of public policy is of greater importance or effect so closely the interests of the people of this country for the time present and to come as that of immigration. It presents both a practical and sentimental side. It cannot be dealt with as other public issues.

It has become an established principle of this government to frown upon the efforts of foreign countries to bring to the United States to become burdens thereupon the indigent, the morally depraved, the physically and mentally diseased, the shiftless and all those who are induced to leave their own country, not by their own independent volition and their natural ambition to seek a larger and more promising field of individual enterprise, but to carry out some selfish scheme, devised to take undue advantage of some classes of our own people, or for other improper purposes. Such a policy is a wise one, as well as obligatory upon the government of this great country. The total estimated alien immigration to the United States from 1776 to 1890 was 250,000. The total number of arrivals for the fiscal year ending June 30, 1903 was 857,046. This is the greatest number that ever applied for admission in a single year. The nearest approach to this was in 1882 when 789,000 was admitted. The character of the arriving aliens, however, during the past year differs greatly from that of 1882 and the years previous. Since the foundation of our government until within the past fifteen years practically all of the immigrants came from Great Britain and Ireland, Germany and the Scandinavian countries and was very largely of Teutonic stock, with a large percentage of Celtic. Fifteen millions of them have made their homes with us. In fact they have been the pathfinders in the west and northwest. They are intelligent, industrious and sturdy people. They have contributed largely to the development of our country and its resources and to them is due, in a great measure, the high standard of American citizenship.

The character of our immigration has now changed. During the past fifteen years we have received a very undesirable class from southern and eastern Europe which has taken the place of the Teutons and Celts. During the past fiscal year nearly 600,000 of these have been landed on our shores constituting nearly 70 % of the entire immigration for that year. Instead of going to those sections where there is a sort of need for farm labor they congregate in the large cities, mostly along the Atlantic seaboard, where they constitute a dangerous and unwholesome element of our population.

The question that individually and vitally affects the interests of our people is: What shall we do with the thousands that are admitted? Shall they be allowed to form alien colonies in our great cities, there to maintain the false ideas and to propagate the lawless views born thereof as the result of their experience, foreign, not alone geographically, but foreign as well to this country in their ideas of human liberty and individual rights? Immigration left thus is a menace to the peace, good order and stability of American institutions which will grow and increase with the generations and finally burst forth in anarchy and disorder. It is thus in necessary as a measure of public security to devise and put in force some means by which alien arrivals may be distributed throughout this country and thus afford the opportunity by honest industry of securing homes for themselves and their children.

The department of commerce and labor, through the bureau of immigration, should in my judgment, furnish information to all desirable

aliens as to the best localities for profitable means of earning a livelihood, either as settlers, tradesmen and laborers. The states and territories which need immigration should file with the department such evidence of the advantages offered to aliens to settle in localities where conditions are favorable, so that the tide of immigration will be directed to the open and sparsely settled country.

At the bureau of immigration should be the medium of distributing the aliens as it is to decide to whom the right to enter should be given.

St. Petersburg, April 9.—3:40 p. m.—Great preparations are being made for the big Easter feast after midnight tonight. This morning at 4 o'clock in all the Orthodox churches occurred the ceremony of the Burial of Christ. Preceded by the clergy bearing lanterns and silver crosses, representing the crucifixion and carried on the shoulders, the bishops and deacons passed around the outside of the churches, followed by a long funeral procession, after which the crosses were borne inside and were deposited in the sepulchre.

During the day there were no services in the churches, which remained completely dark save for a few stray lighted candles. Nevertheless they were constantly filled with people, many of them prostrated in prayer.

All the papers express the hope that the sound of the church bells at Easter tide be not broken by the booming of guns at Port Arthur. The Listok says: "Let us hope that the God of Peace will soften the hearts of our foes at least on Easter morning."

His Visit Renewed Confidence. New Chang, Manchuria, Thursday, April 7.—Via Che-Foo, China, April 9.—General Kuropatkin's visit to New Chang has inspired boundless confidence. The commander-in-chief ordered 10,000 reserves to reinforce this position. In view of the expected Japanese attack, while an additional force of 15,000 men is ready to concentrate upon this place at short notice if necessary.

It is estimated now that there are 400,000 Russian troops in Manchuria. General Wozniak has taken over the command at New Chang from General Kondratyevich. The preparations for the defense of the town are complete.

Food Scarcity. New York, April 9.—Japanese reports suggest, cables the Tokio correspondent of the Times, that the scarcity of provisions and forage was probably the chief reason for the

Russian retreat across the Yalu. The Russians apparently stripped the country of everything edible. There are reasons for thinking that the Russian losses at Cheng-Ju-on March 28, were heavier than reported.

Traveling Inco. New York, April 9.—Since March 15 according to a Herald despatch from Peking, at least nine Japanese officers dressed as Chinese, with a full staff of Chinese servants, have passed north through Kupeiko, Jehoe and Ping-Tsuan toward Chao-Ju, General Ma's headquarters. There are about 25,000 foreign drilled troops at Chao-Yang.

Mutual Admiration Society. Seoul, April 9.—The Japanese Minister, M. Hayashi, today officially communicated to the Korean foreign office the fact of the retirement of the Russian troops across the Yalu river and the Japanese occupation of the frontier, which resulted in an exchange of mutual congratulations.

M. Hayashi also requested the Korean government to instruct its prefects along the railroad line to facilitate and engage the coolies with the object of expediting the completion of the Seoul-Fuzan railroad.

A Korean official telegram received today announced that the prefect of Kyong-Seng, in the South Tumen district, who was overpowered by the Russians and subsequently arrested by the Japanese on the supposition that he was a spy, has been released owing to the intervention of M. Hayashi in his behalf with the Japanese military authorities.

There is no Longer Any Doubt That Business of the Harrison Burial Association Is Just and Honest.

Messrs Blume & Son, undertakers, at 224 South Main street, representing the Harrison Burial Association in this city, today received the following copy of a letter written by Representative Wayne, to General Manager Burk, in which he sets forth the legality of that institution, by a bill which passed the house March 26, 1904:

GENERAL ASSEMBLY OF OHIO, House of Representatives. Columbus, O., March 26, 1904.

Mr. A. F. Burk, Harrison, O. Dear Sir:—As you undoubtedly noticed, Wayne's bill, house bill No. 189, passed the senate in Columbus last Thursday, and as the governor has agreed to sign the bill, it is now a law. This law simply requires all your associations in this state to comply to the statute as to reporting their business to the state insurance department, when they are required to do so by said department. Of course these associations are not life insurance associations, as we have frequently demonstrated in other states where the question has been raised. But as the Harrison Mutual Burial Association has proven so popular and of such essential use to all the states and communities where branches have been established, that those communities would feel lost without them, and as the insurance department of Ohio has raised the question as to whether they might not have some of the features of insurance companies about them, I thought it better to settle the question once for all as to their legal standing in Ohio.

We now feel that the 400,000 members of the Harrison Mutual Burial Association in Ohio, to say nothing of the 1,800,000 members of the branches scattered over the United States can congratulate themselves that by this law we still further demonstrate that these most useful institutions are legal and can and will be maintained in a manner most sincerely yours,

Making Computing Scales.

We make and sell the only Automatic Computing Scales that are

allowed to be sold in England.

We make and sell more scales than all other Computing Scale Com-

panies combined.

We make over one hundred different styles and types that are sold

all over the world.

We develop more new ideas than all other scale companies together.

We have over one hundred and forty thousand in use.

Here are a few of the many resolutions and testimonials from parties

using our scales.

here and pronounces them accurate and perfect.

Investigation at Kraeger's.

Brought about by accusations in a communica-

tion which are found untrue.

In last Saturday's issue of the Star appeared a

communication signed "a prominent citizen" reflect-

ing on the Money-Weight Scale Co., of Dayton, Ohio.

Interested citizens asked for an investigation and a

correspondent together with John Zuckweiler and

Deputy Sheriff Auglar made an examination of the

Money-Weight Scale at Kraeger's grocery and meat

market and found them to be perfect and exact. The

following statement was the result of the investiga-

tion.

We have called at the John Kraeger Grocery Co.,

tested with the government standard weights the

Boston Money-Weight Scale and went over the com-

putation and find them absolutely correct. We be-

lieve in Scale justice between customer and mer-

chant and at no time taking more than which is jus-

ty due the merchant.

J. W. ZUCKWEILER,

H. W. B. AUGLAR.

From the above it is plain that the assertion in

the communication against the Money-Weight Scale

Co. is incorrect and that a great injustice has been

done that company.

The committee in the presence of witnesses said

they never saw a fairer scale both to customer and

the merchant than that of the Money-Weight Scale

made by the Computing Scale Co., of Dayton, Ohio.

This Scale is used almost exclusively by the mer-

chants of Peoria and our sister city, Pekin.

Cured.

Backed up by over a third of a century  
of remarkable and uniform cures, a record  
such as no other remedy for the disease  
attained, the proprietors of Dr. Pierce's  
Favorite Prescription now feel fully war-  
ranted in offering to pay \$500 in legal  
money of the United States for any case  
of Leucorrhoea, Female Weakness, Pro-  
fuse, or Falling of Womb which they can-  
not cure. All they ask is a fair and reason-  
able trial of their means of cure.

"I used four bottles of your 'Favorite Pres-  
cription' and one of 'Golden Medical Dispen-  
sary.' I was cured of my 'Leucorrhoea' and  
my 'Falling of Womb.' I can say that I am  
cured of that dreaded disease, and I am  
in better health than ever before. Every-  
one who knows me is surprised to see me look  
so well. I am in good health and I am  
able to do all my work. To-day I am cured.  
I tell everybody that Dr. Pierce's medicine  
cured me."

to Ricans in furnishing employment

While rice is not one of the large  
products of Porto Rico, its cultivation  
offers a most unusual market. Rice  
is a favorite food of the Porto Rican  
70,000,000 pounds being consumed

each year, only 1,000,000 of which is  
produced upon this island. Once more  
the ground is too dry for the produc-  
tion of the swamp, or flooded rice. The

dry rice product could be immensely  
increased by skill and care, coupled  
with American science and industry.

But when the subject of Porto  
Rico's products changes to fruits, the  
story to tell is different. Porto Rico  
was at once seen by the commis-  
sioners sent by President McKinley to

make a study of the island soon after  
the American possession to be the na-  
tural home of such citrus fruits as the  
orange, lemon, lime, and shaddock, or

grape fruit, while the pineapple,  
guava, of alligator pear, banana,  
mango, bread fruit, mango, zapo-  
tilla and guava grow in tropical abundance

bananas, "the bread of the poor,"  
grow without planting or care almost  
everywhere on the island, and while  
of the very finest flavor and variety

are scarcely thought of for shipment  
or for anything else save as shade to  
the coffee plants. On the lands near  
the seashore, the coconut trees are

found in abundance, and their product  
proves one of the most reliable. A  
coconut tree is said to drop a nut

for each day in the year, but two hun-  
dred and fifty would be a more reli-  
able estimate. The trees grow eighty  
to the acre, and the nuts sell for about

\$12 per thousand. The coconut  
buyers are met frequently upon the  
island, endeavoring to secure sufficient  
shipments to insure their schooner

a cargo every month. The trees bear  
five years after planting, and the  
American market insures a net profit

or a lifetime after that. The cocoa  
nut has no risk attending its growth.  
The coconuts will find a new  
world to conquer with the advent of

awakened Porto Rico into the markets  
of the world, for the maguay, a well-  
known cordage plant, will produce a  
fine sisal hemp worth from six to sev-  
en cents per pound in New York. The

of "Rubber" will also be heard, for  
it is already evident that the Central  
and South American trees excluding  
the milky, sticky fluid, will thrive in  
Porto Rico.

## HIGH PRESSURE DAYS.

Men and women alike have to work  
necessantly with brain and hand to  
hold their own nowadays. Never  
were the demands of business, the  
wants of the family, the requirements  
of society, more numerous. The first

effect of the praiseworthy effort to  
keep up with all these things is com-  
monly seen in a weakened or debilitat-  
ed condition of the nervous system,  
which results in dyspepsia, defective  
nutrition of both body and brain, and  
in extreme cases in complete nervous

prostration. It is clearly seen that  
what is needed is what will sustain  
the system, give vigor and tone to the  
nerves, and keep the digestive and  
assimilative functions healthy and ac-  
tive. From personal knowledge, we

can recommend Hood's Sarsaparilla  
for this purpose. It acts on all the  
vital organs, builds up the whole sys-  
tem, and fits men and women for  
these high-pressure days. d&w

## IN MEMORIAM.

Thus is life! Only a few years do  
we journey here below and then come  
to that bridge—death—which trans-  
ports us from these earthly scenes in-  
to a happy paradise of love. No sex is  
spared! No, aged exempt; the majestic  
and courtly roads which monarchs  
pass over, the way that the men of  
letters tread; the path the warrior  
traverses; the short and simple an-  
nals of the poor, all lead to the same  
place; all terminate, however varied  
in their routes, in that one enormous  
house which is appointed for all  
living. Death comes equally to us  
all and makes us all equal when it  
comes.

The "grim reaper" has entered once  
more the home of Frederick Faurot,  
claiming this time the devoted hus-  
band and loving father, leaving in the  
hearts of the bereaved loved ones,  
and in the home, a vacant place which  
no one, however dear can ever fill.

The late David and Eleanor Faurot  
—parents of the deceased—brought  
up to manhood and womanhood ten  
children—Katharine, Harriett, Benj.  
C., Frederick, Gideon L., of Buffalo,  
Wyoming, Jane, Matilda, George S.,  
Arthur K., of Albion, Mich., and Mar-  
aret. The daughters have one by  
one passed away, leaving only Mrs.  
Matilda Karmes. Mr. Frederick Faurot  
being the first of the sons to depart  
from this life.

He was born in Alcoa, N. Y., Sept.  
13, 1832, but while yet a young boy,  
moved with his parents and family to  
that part of Ohio now known as San-  
luskus Plains. Later, they moved into  
the country near Marion, Ohio, and  
all later near Kenton, so that most  
of his boyhood and young manhood  
was spent upon a farm, where he pos-  
sessed of a cheerful and contented dis-  
position combined joy and happiness  
with the every day duties of country  
life, for he was ever willing to lend a  
hand to make easier the tasks which  
fell to his parents, for whom he ever  
had the greatest love and respect.

He was a poor man's son, yet he re-  
membered, though he was at the foot  
of the hill, every step he took toward  
his goal of wealth and honor gave him  
increased energy and power. He chose  
to be honest rather than rich, and  
with all power of endurance and per-  
severance, went forth with a prospect  
of success, engaging in the horse busi-  
ness on coming to Lima in the year  
1851, where he has ever since made  
his home.

He was loved and respected by all  
of his companions who expected an  
evening's enjoyment if he was one of  
their number.

He lived a quiet, reserved life, but  
his influence was felt by those who  
lived near him, for he was ever ready  
to give them a helping hand. He was  
one of those of whom it may be said—  
"I cannot be a great river, bearing  
vessels of blessings all over the  
world, we may at least be a little  
stream by the wayside, giving a cup of  
cold water to every weary and thirsty  
nasserby."

He met, and loved and married Miss  
Emma Wyant, of Clark Co., in the  
year 1860, and to them were born four  
children, Benjamin, who but a few  
months ago answered death's sum-  
mons, Mrs. B. B. Garretson, Harry, of  
Victor, Colo., and Miss Florence.

A year or more ago, failing health  
compelled Mr. Faurot to retire from  
his active duties of business life, and  
since that time the family has seen  
a rapid change in his condition. Sev-  
eral weeks ago, he became critically  
ill and the devoted wife and loving  
children gathered around him to do  
all in their power to make his last  
moments peaceful. He was ready  
and willing to go—saying to his loved  
ones, "Bear sickness with courage,  
or there is such a happy home be-  
yond, where only joy is known."

Death was to him only what it is  
to God's children, the gate of glad-  
ness, the port of paradise, the begin-  
ning of all blissfulness; a bed of down  
or the weary body, a going to our eter-  
nal home. And it was with this sweet  
confidence in God that he closed his  
eyes peacefully upon earth and all  
bore so dear to him, to open them in  
that better land beyond, leaving the  
wife, three children, many loved ones  
and friends to mourn his departure.

We pass from the clasp of mourning  
friends,  
To the arms of the loved and lost,  
And those smiling faces will greet us  
there,  
Which on earth we have valued most.

## ITALIANS AND THE BIBLE.

A lady living near a town where  
fifty Italians came to work, became  
very much distressed at the heathen-  
ish way in which they lived, for she  
discovered that they never went to  
church. Most of them could speak no  
English, and she could speak no Ital-  
ian, so she was at a loss to know how  
to help them. Discovering that almost  
all of them could read in their native  
tongue, she purchased copies of the  
New Testament in Italian and gave  
one to each man. It was not long be-  
fore one of the loaders came to her  
and asked if there was a church where  
they could go and hear that book read.

He said that most of the men were  
reading it, many of them with much  
interest. She consulted with her  
husband, and they arranged to have a  
man come from the neighboring city  
and preach to them in Italian. The men  
were interested, and so grateful that  
their meetings followed until now the  
church has what might be called an  
Italian annex, and the results of the  
work are most gratifying.

## TALK

Of Injunction Proceedings.

Not Satisfied

With Action of Board of Public Service,

Pine Street Property Owners Protest Against Award of Contract,

Which Provides for the Use of Sheet Asphalt on Their Street—Claim Majority Petitioned for Brick.

Yesterday afternoon the board of public service received a bid and awarded a contract for the proposed improvement of Pine street, from Market street to the Hog creek bridge, and today there is talk among the property owners who are directly interested, of beginning injunction proceedings to prevent the carrying out of the contract according to its present provisions.

The property owners are dissatisfied because the contract contemplates the use of sheet asphalt as the paving material to be placed on each side of the street railway track on their street. Their original petition called for sheet asphalt but they afterwards decided that as brick would be used between the rails of the street railway tracks, they preferred to have the entire improvement made with brick. They sent a second petition to the city council but as asphalt legislation had already been enacted the petition for brick was tabled and the whole matter went over to the board of public service.

The board advertised for bids on an asphalt improvement yesterday. One lone bid was submitted. A representative of the Barber Asphalt Company was in the city but he declined to bid on the work and the only bid that the board received was submitted by M. F. Bradley, of Cleveland, an ex-member of the Ohio legislature, who represents the Cleveland Trinidad Paving Company. His itemized bid was as follows:

Excavation	\$ 35
Concrete foundation	85
Sheet asphalt	1.45
Brick	1.30
Straight curb	.60
Catch basins	1.00
Stone headers	30.00
	25

The aggregate cost of the improvement, according to the terms of the contract, will be \$6,325, and that amount, Engineer Gamble states, is \$555 below the engineer's estimated cost of the work.

The Cleveland Trinidad Paving Co. constructed the west North street, east Market street and extreme west Market street improvements in this city.

Of Paying For

Lot to Be Added to Baptist Church.

New Building Will Be Erected on Corner of High and West Streets.

Men of the Church Club Entertained by S. B. Fleeter, and Guaranteed to Raise a Fund of \$1,750.

The Men's club of the Baptist church held its regular monthly meeting last night, being pleasantly entertained by S. D. Fleeter, in the Steiner block, where a large representation of the club gathered to spend a social evening and transact such business as might be presented for consideration.

As is generally known, the Baptists of Lima are to erect a new house of worship, and a fund is being raised for that purpose. In the furtherance of that object, the club last night pledged itself to raise the sum of \$1,750 within the year, the money to be used toward the purchase of the lot where the new building is to stand. The church recently acquired the property on the northeast corner of High and West streets, and have an option on the lot adjoining which will be closed thus giving an area of 100x100 feet for the building.

It was reported by Treasurer Max Rupp last night, that the net proceeds of the musical and basket ball entertainment would be in the neighborhood of \$180, and contributions were made to that fund last night which will bring it up to \$150. I. R. Longworth made a suggestion for an entertainment in May, under the club's auspices, which received unanimous approval, and it will appeal to the public because of its excellence. It is too soon to give the public the details, but it is in the hands of the social committee whose duty it will be to bring the idea presented to a point of perfection.

W. L. Parmenter was down for an address, but he did not speak from an assigned subject, his remarks being in the nature of encouragement toward active work for the good of the church on the part of the club members. Referring to the obligation assumed by the club, he suggested that no public entertainment be attempted unless it be of a nature that would encourage patronage, not from a notion of charitable giving but because the people could be assured of getting the full worth of their money. He did not want the club to become a tiresome burden on the public and knew that the other members felt the same way.

The social part of the evening was greatly enjoyed and the club partook of refreshments when the hour drew near for adjournment.

## VETERANS

Were Too Much for the Pabst Team,

But It Took the Last Game to Decide It.

Scores Were Below the Average and Some of the Best Bowlers Failed to Get There Figures.

The Pabst bowling team was compelled to lower their colors before the Veterans, last night, but the contest at the Brunswick alleys was a fight to the finish. The series was to be the three best out of five, and the veterans took the fifth game after each side had two to their credit. The scores which were far below the general average, show that both teams were playing an alternate game of luck, going up and down with the change of alleys. Not one of the ten bowlers reached the 200 mark, the nearest approach being by Ray Harman, who bowled 185 in the third game.

The highest total was 755, made by the Pabst team in the third game, but the veterans not only won the series but scored the highest total number of pins, getting 3409 against the Pabst with 3324. Several of the best bowlers went to the bad, and fell below the 100 mark. The individual records show the result:

## SOCIETY.

Last Wednesday evening, the ladies of the Ogareta club again entertained their husbands in a very charming manner at the home of Mr. and Mrs. Wm. Hausman, of McPherson avenue. An excellent program was rendered, consisting of vocal and guitar music by Mr. Hausman and Mr. Clapgood, select readings by Mrs. Fleming, Mrs. Wm. Hausman and Mrs. A. E. Ransbottom. In the donkey contest, Mr. Van Alexander and Mr. Bert Wilflove were lucky in securing the prizes. An elegant two course luncheon was served. The club will meet in two weeks with Mrs. Furry.

The Auld Lang Syne club will meet with Mr. and Mrs. A. D. Hildreth, of south Collett street, Monday evening. Thursday evening, thirty young folks walked in on Mr. and Mrs. Will McRae with a granite shower. All had a grand good time with lots to eat, good music and singing.

Wednesday evening, the Busy Bees and their husbands surprised Mr. and Mrs. Geo. McClure. It was their 7th anniversary. They were presented with a lovely hand painted plate.

Thursday afternoon, Mrs. Geo. McClure entertained the Busy Bees. Mrs. King carried off the prize in the penny contest. They met with Mrs. Dr. Cleps, next time.

Are Mosier and Bell Who Have Placed a Wonderful Machine in Their Laundry.

Mosier & Bell, proprietors of the west North street laundry, have moved abroad—with the times, and added to their already splendid equipment, a machine which is one of the masterpieces of mechanical ingenuity. A better idea of its operation can be had by seeing it work, than to attempt to describe it in detail, and the proprietors especially invite the public to call at any time in the morning after nine o'clock.

The machine, while simple enough in its operation, does work of superior excellence in the ironing of collars and cuffs and turns them out with a capacity of 1500 dozen a day. Its principal point of recommendation is that the two steel rolls are heated by steam, instead of gas, and the work is turned out soft and pliable, and with less of a celluloid appearance, which a hard, dry heat gives to laundry work. The method of ironing, which the new machine makes possible, guarantees a longer life for linen, as it takes away the crystallized stiffness, and
